

Machine operation via easy to use touch panel

Layout PROFI S150

Premium Grind for Downhill and Nordic PROFI S150

With the PROFI S150 you can accommodate skiers ranging from beginners to racers. The PROFI S150 is a perfect solution for nordic skis as well. It symbolizes space saving, simple handling with less than 1sqm platform. As professional service provider you will create exceptional race and nordic structures that have been approved by professional athletes.

Reproducible structures

The PROFI S150 serves as the foundation for our online platform "PatRich" program, and is the perfect tool for base structure gurus. Over 50 base structures are programmed within the machine for optimized surface structures and re-callable by the push of a button. Further programs can be added by authorized users of the machine. Choosing a base structure is a snap utilizing the color high resolution 5.7" touch screen with pattern preview function. The Profi S150 provides definite symmetric structures due to the 3 point centering system. Various depths of structures are achieved by the pneumatic infeed of the dresser.

Cleaning and maintenance

The special filter system shows the state of the grinding material visible from outside and allows a fast and simple change.

A good investment for the future

The PROFI S150 will allow you to service a wider range of skier abilities, while doing this at a quicker rate. You will be able to service more skis in less time, all while giving your customers superior quality. The PROFI S150 requires less spare parts and service due to its "Made in Germany" quality.

TECHNICAL DATA PROFI S150

Dimensions (L x W x H) in mm	1250 x 800 x 1300
Weight in kg	400
Connecting voltage	380 - 415 V, 3 PH/N/PE, 50 Hz
Connecting plug	CEE 16A 5-pol.
Engine speed 1/min	stepless adjustable
Connecting power in kW	4
Coolant tank approx. in l	85
Grinding stone in mm	Ø 250 x 150
Dressing speed	stepless adjustable
Feed speed	stepless adjustable
Grinding pressure feed in kg	10 - 35
Dresser infeed	0,01 mm steps programmable

ACCESSORIES PROFI S150
